

The Magic of Light

LIGHT - O - LOGY series

Educational Resource

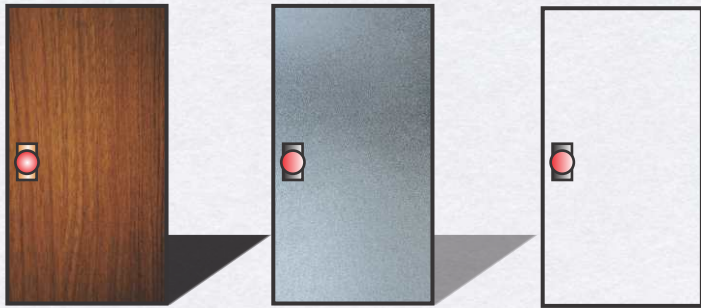

On Earth we relish the sight of a beautiful rainbow, the refreshing shade of a tree, the lush green leaves, the shimmering surface of the sea at night and even enjoy spending time in front of the mirror. Students unravel and associate this experience to the wonderful magic show put on by light.

CHALLENGE YOURSELF

1. LIGHT AND SHADOWS

Write opaque/transparent/ translucent in the given blanks by comparing the shadows of each door.

Materials are categorized as opaque, transparent and translucent, with respect to their interaction with light.

A. Opaque

B. Translucent

C. Transparent

2. MAKE SHADOW HAND PUPPETS

Guess the creatures formed.

Rabbit
