DISCOVERING THE SKIES

Educational Resource

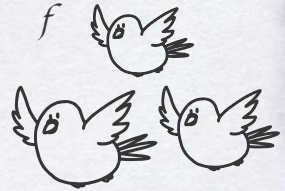

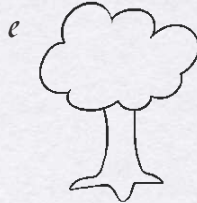

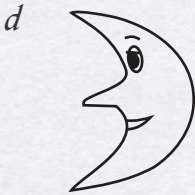

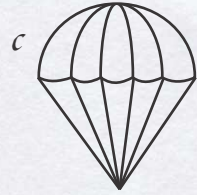

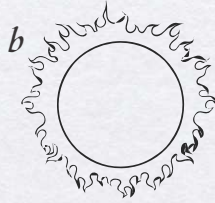

We all get fascinated when we look at the sky. We appreciate the fluffy clouds, the birds and even the twinkling stars in the night. These objects can tell a lot about the sky. Let's look up in the sky and unravel the secrets of this beautiful envelope above us.

CHALLENGE YOURSELF

Q1 Color all the objects that belong to the Earth with **red**.
(Hint: They should be present on earth or in Earth's atmosphere).
Color all objects that belong to the heaven (space) with **blue**.

Q2 Match the following:

- | | | |
|------------------------------------|---|-----------------------------------|
| 1. Heavenly bodies | ← | a) Rocket, House, Road |
| 2. Objects found in our atmosphere | ← | b) Cat, Rainbow, Sand |
| 3. Man-made objects | ← | c) Star, Sun, Moon |
| 4. Natural objects | ← | d) Hot Air Balloon, Rainbow, Kite |
