WHY WE CHOSE ASTRONOMY?

- Astronomy is the study of Stars, Planets and Space.
- Astronomy has given the world a lot of crucial discoveries.
- Astronomy is the mother of all sciences which directly or indirectly impacts our life.
- Studying Astronomy literally helps people to understand their place in the universe.

Developed Countries are actively Investing in **SPACE** Programmes

- Space Sector will reach \$1.4 trillion by 2030 (Source: Bank of America)
- By 2050, commercial space travel, space tourism, orbital space stations, and lunar habitats are likely to become a reality.
- Space Economy in India is estimated to reach US\$13 Billion at a CAGR 6% By 2025
- India constitutes 2-3% of the Global Space Economy & is expected to enhance its share to more than 10% by 2030 (Source: Joint Report by EY and Indian Space Association)

SPACE Group of Companies is an amalgamation of Education, Experiences, and Innovation. Space has been revolutionising Education and Tourism sector through Astronomy and Space Science while making it accessible to every human on Earth. Space Group's mission is to inculcate scientific temperament across the world and has been relentlessly creating world-class content for the best education and experiences. Space is on a pursuit each day to provide the right Education, Equipment, and Ecosystem. Since year 2001, Space has inspired +1.5 Million students, engaged +1,000 schools and is actively popularizing the concept of AstroTourism worldwide. SPACE India, a registered **Space Tutor of Indian Space Research Organisation (ISRO)**, is creating **impact through Science** and is aligned to **UN's Sustainable Development Goals**.

Observatory**

MISSION

To inculcate Scientific Temperament, Build Capacity and make Astronomy & Space Science Education & Experiences easily accessible to every Human on Earth.

VISION

To popularize hands-on science, astronomy and space science through fun-filled pioneering concepts, services and programs.

SPACE GROUP

SCHOOL EDUCATION & INNOVATION

SPACE TECHNOLOGY & EDUCATION PVT. LTD.

SPACE India has inspired more than 1.5 Million students since 23 years of its existence. SPACE adopts methods that revolve around: **Hands-on learning, STEAM Inclusion, Multidisciplinary approach, Experiential Learning and Holistic development.**

The educational programs for students inculcates 21st century skills as these programs have years of research behind them that are curated meticulously for different age groups.

SPACE has developed its own learning platform (e-learning) to make astronomy accessible to everyone around the world, bridging the geographical gap with iAstronomer Club.

SPACE LABS & OBSERVATORIES

Establish Khagolshala Lab (Astronomy, Space Science & STEM Labs) or Space Observatory and empower a strong education framework through hands-on learning from Lab or Observatory inclusions.

Benefit from infrastructure advancement by giving students a bright future, research and citizen science projects participation, attract parents participation and students exchange programs through the development of Lab & Observatory.

ASTROTOURISM (TOURISM)

Astronomy and travel are related and stars are always above your head. Travel to Astronomy related places or do astronomy while travelling to any location on earth. Astro Tourism invites explorers to travel and delve into the intriguing and exciting world of space. Astro Tourism offers travellers the unique opportunity to satisfy their curiosity and learn truths about the mysterious skies above us.

#EduTours

(MANUFACTURING & MARKETPLACE)

Space Arcade, is the largest multi-channel marketplace of quality optics sales for astronomical products that sells Telescopes, binoculars and other educational products. Space Arcade stands for high quality, excellent value, and an unswerving commitment to customer care and service. The best selection in state-of-the-art optics, at affordable prices, we offer amateur and expert astronomers and outdoor enthusiasts a great variety and service.

Space Arcade deals in all major brands of optics, telescopes, binoculars and astronomical equipment's from across the globe like, Celestron, Orion, Meade Instruments, Sky-Watcher, GSO, KSON etc.

ASTROPORT (HOSPITALITY)

Tourism is one of the influential sectors that not only contributes towards economic activities but also generates employment opportunities.

Considering the importance of local economic development, the concept of “**Astroport**” by Space India, are the first concept based unique tourism destinations in India focusing on experiential learning. The strategically designed serene sites located in the nature's lap which are far away from the polluted cities with a heavy twinkling sky above.

FUTURERN (METAVERSE)

future
Metaverse Technology

Revolutionizing Educational concepts with Augmented Reality and Virtual Reality for better engagement & interaction.

Curating a better future for youth, Augmented Reality (AR) and Virtual Reality (VR) campaigns will guide the reforms of better education and learning.

Building a seamless connection between the virtual and the real world.

SPACIAN NFT (MEMBERSHIP PERKS)

SPACE FOUNDATION

SPACE Foundation works on 2 components:

1. Popularizing Astronomy through Government and outreach programmes.
2. Empowering the underprivileged with educational aids.

Space Group has pledged 1% of entire companies sales to Space Foundation initiatives.

Giving back to society, Teaching Science at grassroot levels to all in need. Every project we conduct is an opportunity for us to eradicate false divisions based on caste, creed, and race and to propagate a reason and science-based behavior in people. The ultimate intention is to create an intelligent, analytic, and space-savvy global community who will be the future leaders in man's exploration of space and the universe, in a world that is rapidly heading to a space-age.

Expedition**

**1st SPACE Franchise
Started**

**India's first
premium sky
observation facility
& research centre at
Sariska, started**

2015-17

Trained 174 Student Earth Scientists

100+ Astronomy Club

500+ days of workshop

2018-19

2401 Preliminary Asteroid Discoveries

4 Provisional Asteroid Discoveries

'100 Hours with stars' with International Astronomical Union Centennial Celebration

Launch of Student Satellite 'Ramansat 2' by NASA

2020-22

Est. of 'KHAGOLSHALA' Astronomy & Space labs in Collaboration with PSA Office, GoI

First EdTech Program for All Age Groups iASTRONOMER

Two students from P.P Savani Chaitanya Vidya Sankul discovered a Near Earth Object (NEO) in AIASC

Voyager Course Launch: Space Skill Learning & Educator Training

New School Program launch: The Innovator's Club for Robotics, Drone, AI & IOT

2023

50k+ people engaged in the Astro Night Sky Tourism events at heritage sites in collaboration with the Ministry of Culture, National Science Centre, etc.

Est. of School Khagolshala Lab

Est. of First Space Observatory at DPS, Faridabad

Launch of India's First Retail Store for Astronomy Equipments

EduOdyssey: Chandrayaan 3 & Beyond - ISRO Event

ISRO Registered Space Tutor

DIGNITARIES AFFILIATED WITH SPACE

Dr. Rathnasree Nandivada,
Director of Nehru Planetarium
felicitated Asteroid Discoverers

Dr. APJ Abdul Kalam, former
President of India, interacted with
the winners of Heliodysey 2006

Mrs. Sheila Dikshit, former chief
minister of Delhi, felicitated
Asteroid discoverers.

DIGNITARIES AFFILIATED WITH SPACE

Mr. Arvind Kejriwal, chief minister of Delhi, felicitated Asteroid discoverers.

Dr. M. Annadurai, Moon man of India, felicitated All India Asteroid Search Campaign Discoverers

Mr. Sachin Bahmba, CMD SPACE with **Mr. Mahmood Ali Al Zadjali**, Ministry of Education, Oman

TESTIMONIALS

Narendra Modi
(Prime Minister)

I am happy to know that SPACE is conducting clubs, courses and workshops for schools in India in collaboration with USA based International Astronomical Search Campaign

Arvind Kejriwal
(Chief Minister)

It's amazing work done by SPACE in inculcating scientific temperament amongst the students at such a young age.

Sheila Dikshit
(Former Chief Minister)

We are so proud - ever seeing our students stepping into the realm of astronomy & achieving heights to make knowledge ever more encompassing. See the good of all mankind bless you

Manish Sisodia
(Former Deputy CM)

I always think that our classrooms should produce scientific minds. Then only we can get rid of a lot of misconceptions and obsolete traditions. I am really impressed with the work and the activities of team SPACE.

TESTIMONIALS

Sunita Williams
(Astronaut)

Believe in your dreams! We really live in borderless world. Take responsibility for it. Keep it healthy & happy is your challenge.

K. Vijayraghavan
(Principal Scientific Adviser)

I am sure that the Khagolshalas will open the window of opportunity for our students to be future astronomers and space scientists of India.

Rakesh Sharma
(Cosmonaut)

Dream! Dream big and don't step back till you achieve what you set out to do - things are never as difficult as they first appear when viewed from outside!

A. P. J. Abdul Kalam
(Former President of India)

Science is a beautiful gift to humanity; we should not distort it.

OUR TEAM

Dr. Sachin Bahmba
Founder

Passionate and committed to harnessing the potential of Astronomy and Space Sciences in creating entrepreneurship and sustainable development.

Mr. Pankaj Jain
Chairman

Embodies the spirit of an entrepreneur and a dedicated philanthropist. He possesses a profound passion for fostering innovative ideas, business concepts, and cutting-edge technologies to contribute to the betterment of society.

Mr. Shivam Gupta
Managing Director

Motivated to create an impact in every human's life with a strategic and empathetic driven approach & making SPACE the most trusted organization.

Mr. Mitul Jain
Managing Director

Powered by legal acumen and business foresight, he seeks to position the Group in global space and astronomy education arena and further envisions pioneering endeavors that tap into India's potential as a spacefaring nation.
